

**DESCRIPTION OF THE PROJECT**

The project consists of the construction of a large industrial building with a total area of approximately 100,000 square meters. The building is designed to accommodate a wide range of industrial activities and is equipped with modern facilities and infrastructure. The site plan shows the layout of the building, parking lots, and access roads. The construction is planned to be completed within a period of 18 months.

**GENERAL NOTES**

1. The site plan is based on the existing topography and infrastructure of the site. 2. The building is designed to be a single-story structure with a flat roof. 3. The parking lots are designed to accommodate a total of 500 vehicles. 4. The access roads are designed to be 10 meters wide and to be paved with asphalt. 5. The site plan is subject to change without notice.

**CAPITULATION**

NO	DESCRIPTION	UNIT	QUANTITY	UNIT PRICE	TOTAL PRICE
01	Excavation	m <sup>3</sup>	1000	100	100000
02	Concrete	m <sup>3</sup>	2000	200	400000
03	Steel	kg	5000	500	2500000
04	Brick	m <sup>3</sup>	10000	100	1000000
05	Paint	kg	1000	100	100000
06	Labour	man-days	10000	100	1000000
07	Transport	km	10000	100	1000000
08	Other				
<b>Total</b>					<b>10000000</b>

**REMARKS:** The above table shows the estimated cost of the project. The actual cost may vary due to changes in the project scope and market conditions.
