- 6) Road and footpath shall not be encroached by dumping of building materials mixing of mortar etc. without prior permission.
- 7) Prior to commencement of construction Appendix-B shall have to be submitted.

CHECKED BY

Assistant Engineer
Bidhannagar Municipal Corporation

During construction following measures are to be strictly taken to reduce the effects of dust pollution from building construction sites

- Properly covering all building materials stacked at site like cement bags, sand, lime & stone chips.
- Using water sprays or sprinklers to keep the dust down during activities such as concreting, plastering, breaking concrete and piling etc.
- Washing the wheels of vehicles before carrying mud or waste.
- Putting up solid barriers to prevent carrying building materials.
- Properly covering trucks and building debris.
- Cleaning and watering road and footpath at frequent intervals.
- Using dust bags or spraying water when using stone cutters and making the working area wet before using the machine.
- Not burning waste material at site which causes smoke containing carbon monoxide and a range of poisonous substances.
