TO WHOM IT MAY CONCERN

I am writing this letter to bring to your attention an issue related to the requirement of a No Objection Certificate (NOC) from the FIRE Department for building sanctions in certain areas. Specifically, we would like to request an exemption from obtaining a Fire No Objection Certificate (NOC) for the approval of the Completion Certificate for our project, as per the KMC building norms Chapter XVII and the National Building Code Part 4.

We wish to bring to your attention that the Rajwada Solus project has been meticulously designed and constructed in strict compliance with all the relevant safety standards and guidelines prescribed by the Kolkata Municipal Corporation (KMC) and the National Building Code (NBC). Our project incorporates state-of-the-art fire safety measures.

Therefore, we believe that our project does not require a NOC from FIRE Department, and we would like to request that this requirement be waived for our building sanctions. We have submitted all the necessary documents related to the proposed construction, including a detailed plan of the building and its surroundings. We have also obtained all the relevant clearances from the local authorities. We urge you to consider our request and grant us the necessary permission for building sanctions. We believe that our construction will not have any adverse impact on the occupant's safety and we are committed to adhering to all safety regulations and guidelines.

Thank you for your attention to this matter. We look forward to your prompt response.

Sincerely,

Bikash Agarwal
