# PANSARI DEVELOPERS LIMITED Notes to Standalone Financial Statement for the year ended 31st March, 2022

# 1 Company Overview

Pansari Developers Limited ("The company") is a public limited company incorporated in India having its registered office situated at 14, N.S. Road, 4th Floor, Kolkata - 700 001. The Company has its shares listed on National Stock Exchange of India Ltd (NSE).

#### 2 Significant accounting policies.

# I Basis of Preparation of Financial Statements

# a) Statements of Compliance

These Standalone financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) notified under Section 133 of the Companies Act, 2013 ('Act') and other relevant provisions of the Act and guidelines issued by the Securities and Exchange Board of India ('SEBI'), as applicable.

The Standalone financial statements are authorized for issue by the Board of Directors of the Company at their meeting held on 30.05.2022.

#### b. Functional and presentation currency

These Standalone financial statements are presented in Indian Rupees (Rs.), which is also the Company's functional currency. All amounts have been rounded off to the nearest lakhs, unless otherwise indicated.

# c. Basis of measurement

These financial statements are prepared under the historical cost convention on the accrual basis except for Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments).

# d. Use of estimates and judgments

The preparation of the Company's Standalone financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Estimates and underlying assumptions are reviewed on an ongoing basis. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these Standalone financial statements have been disclosed below. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. The changes in the estimates are reflected in the Standalone financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the Standalone financial statements.

#### II Revenue from contract with customer

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Revenue is measured at the fair value of the consideration received or receivable, net of returns, discounts, volume rebates, and goods and service tax. The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Company regardless of when the payment is being made.

The specific recognition criteria described below must also be met before revenue is recognised.

#### Sale of Products

Revenue from sale of products is recognized when the Company transfers the control of goods to the customer as per the terms of contract. The Company considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price, the Company considers the effects of variable consideration, the existence of significant financing component, non-cash considerations and consideration payable to the customer (if any). In case of domestic sales, the company believes that the control gets transferred to the customer on dispatch of the goods from the factory and in case of exports, revenue is recognised on passage of control as per the terms of contract / incoterms. Variable consideration in the form of volume rebates is recognised at the time of sale made to the customers and are offset against the amounts payable by them.

#### Notes to Standalone Financial Statement for the year ended 31st March, 2022

# Contract balances

#### Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

#### **Refund Liabilities**

A refund liability is the obligation to refund some or all of the consideration received (or receivable) from the customer and is measured at the amount the Company ultimately expects it will have to return to the customer. The Company updates its estimates of refund liabilities (and the corresponding change in the transaction price) at the end of each reporting period.

Dividend income is recognized in Statement of Profit and Loss on the date on which the Company's right to receive payment is established. Interest income is recognized using the effective interest method.

#### III Property, Plant & Equipment

Property, plant and equipment are stated at acquisition cost, less accumulated depreciation and accumulated impairment loss, if any. The cost of Property, Plant & Equipment comprises of its purchase price, including import duties and other non-refundable taxes or levies and any directly attributable cost of bringing the asset to its working condition for its intended use. Interest and other financial charges on loans borrowed specifically for acquisition of capital assets are capitalised till the start of commercial production.

Depreciation is provided on the straight line method over the estimated useful lives of assets and are in line with the requirements of Part C of Schedule II of the Companies Act, 2013. The estimated useful lives are as follows:

PPE	Useful Lives	Disclosures on revaluation of Assets on conversion to IND AS
Building	60 Years	Land and building revalued on 31.03.2021 as per valuers report.
Plant & Equipment	15 Years	Carried forward at cost
Computers	3 Years	Carried forward at cost
Office Equipment	3-5 Years	Carried forward at cost
Furniture & Fixtures	10 Years	Carried forward at cost
Vehicles	8 Years	Carried forward at cost

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date are classified as 'Capital Advances' under other 'Non-Current Assets' Assets and the cost of assets not put to use before such date are disclosed under 'Capital Work in Progress'.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

# IV Intangible Assets

Intangible Assets acquired separately are measured on initial recognition at cost. Intangible Assets acquired in a business combination is valued at their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

The useful lives of Intangible Assets are assessed as either finite or indefinite.

Intangible Assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible Asset with a finite useful life are reviewed at the end of each reporting period. The amortization expense on Intangible Assets with finite lives is recognized in the Statement of Profit & Loss. The Company amortizes intangible assets over their estimated useful lives using the straight line method.

Intangible Assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit & Loss when the asset is derecognized.

#### Notes to Standalone Financial Statement for the year ended 31st March, 2022

# V Inventories

Inventories are valued at cost or net realisable value whichever is lower except for saleable scraps, whose cost is not identifiable, which are valued at estimated net realisable value. Closing stock has been valued on Weighted As erage basis. Cost comprises expenditure incurred in the normal course of business in bringing such inventories to its location and includes, where applicable, appropriate overheads based on normal level of activity.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

### VI Financial Instruments

# Initial recognition and measurement

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

#### Subsequent measurement

#### i. Non derivative financial instruments

#### a) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

### b) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model.

#### c) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

# d) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

#### e) Investment in subsidiaries

Investment in subsidiaries is carried at cost in the separate financial statements.

Quoted shares are revalued on Quarterly basis as per the price prevailing on Stock Exchange.

Unquoted Shares are revalued on 1.04.2020 on NAV basis and restated on 31.03.2022 as per shares valuer report.

# ii Derivative financial instruments

The Company holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re measured at fair value through profit or loss and the resulting exchange gains or losses are included in other income.

#### Derecognition of financial instruments

The company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

#### Notes to Standalone Financial Statement for the year ended 31st March, 2022

# VII Fair Value Measurement

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

i) Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

ii) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

iii) Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

### VIII Impairment

Impairment is recognized based on the following principles:

#### **Financial Assets**

The Company recognizes loss allowances using the Expected Credit Loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to life time ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12 month ECL<sub>e</sub> unless there has been a significant increase in credit risk from initial recognition in which case those are measured at life time ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in profit or loss.

#### Non-Financial Assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the assets carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an assets fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest level for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash- generating unit) Non- financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of reporting period.

#### IX Provisions and Contingent Liabilities

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

#### X Foreign Currency Transactions & Translations

The functional currency of the Company is Indian Rupee. These Financial Statements are presented in Indian Rupee (rounded off to the nearest Lacs).

Transactions in foreign currencies entered into by the company are accounted at the exchange rates prevailing on the date of the transaction. Gains & losses arising on account of realization are accounted for in the Statement of Profit & Loss.

Monetary Assets & Liabilities in foreign currency that are outstanding at the yearend are translated at the yearend exchange rates and the resultant gain/loss is accounted for in the Statement of Profit & Loss.

### XI Cash and Cash Equivalents

Cash and Cash Equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

#### Notes to Standalone Financial Statement for the year ended 31st March, 2022

# XII Employee Benefits

#### **Defined** Contribution Plan

The Company makes contributions towards provident fund to the regulatory authorities to a defined contribution retirement benefit plan for qualifying employees, where the Company has no further obligations. Both the employees and the Company make monthly contributions to the Provident Fund Plan equal to a specified percentage of the covered employee's salary.

#### Defined Benefit Plan

Gratuity is paid to employees under the Payment of Gratuity Act 1972 through unfunded scheme. The Company's liability is actuarially determined using the Projected Unit Credit method at the end of the year in accordance with the provision of Ind AS 19 - Employee Benefits.

The Company recognizes the net obligation of the defined benefit plan in its balance sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income and are not reclassified to profit or loss in subsequent periods.

The Company recognises the changes in the net defined benefit obligation like service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements and net interest expense or income, as an expense in the Statement of Profit and Loss.

Short term employee benefits are charged off at the undiscounted amount in the year in which the related services are rendered

#### XIII Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

#### XIV Leases

Leases under which the company assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of the lease, whichever is lower. Lease payments under operating leases are recognized as an expense on a straight line basis in net profit in the Statement of Profit & Loss over the lease term.

#### XV Government Grants

The Company recognizes government grants only when there is reasonable assurance that the conditions attached to them shall be complied with and the grants will be received. Grants related to assets are treated as deferred income and are recognized as other income in the Statement of profit & loss on a systematic and rational basis over the useful life of the asset. Grants related to income are recognized on a systematic basis over the periods necessary to match them with the related costs which they are intended to compensate and are deducted from the expense in the statement of profit & loss.

#### XVI Income Taxes

Income tax expense is recognized in the Statement of Profit & Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Provision for current tax is made at the current tax rates based on assessable income.

Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Financial Statements except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

SL

Notes to Standalone Financial Statement for the year ended 31st March, 2022

Deterred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. Deferred income taxes are not provided on the undistributed earnings of subsidiaries and branches where it is expected that the earnings of the subsidiary or branch will not be distributed in the foreseeable future. The company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

# XVII Earnings per Share

Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

# XVIII Current and Non-current classification

The Company presents assets and liabilities in the Balance Sheet based on current/non-current classification.

# An asset is classified as current when it is:

i) expected to be realised or intended to be sold or consumed in the normal operating cycle,

ii) held primarily for the purpose of trading.

iii) expected to be realised within twelve months after the reporting period, or

iv) cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

# A liability is classified as current when it is:

i) it is expected to be settled in the normal operating cycle,

ii) it is due to be settled within twelve months after the reporting period, or

iii) there is no unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current. Deferred tax assets and liabilities are classified as noncurrent.

#### XIX Dividend

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretior of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

#### XX Rounding of Amounts

All amounts disclosed in the standalone Financial Statements and notes have been rounded off to the nearest Lacs (with two places of decimal) as per the requirement of Schedule III, unless otherwise stated.

#### XXI Statement of Cash flows

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

Notes to Standalone Financial Statement for the year ended 31st March, 2022

### XXII Recent Accounting pronouncements

On March 30, 2019 the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2019, notifying Ind AS 116 on Leases. Ind AS 116 would replace the existing leases standard ind AS 17. The standard sets out the principles for the recognition, measurement, presentation and disclosures for both parties to a contract, i.e. the lessee and the lessor. Ind AS 116 introduces a single lease accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Currently for operating lease rentals are charged to the statement of profit and loss. The Company is currently evaluating the implications of Ind AS 116 on the financial statements. The Companies (Indian Accounting Standards) Amendment Rules, 2019 also notified amendments to the following accounting standards. The amendments would be effective from April 1, 2019.

1. Ind AS 12, Income taxes - Appendix C on uncertainty over income tax treatments

2. Ind AS 12, Income Taxes - Accounting for Dividend Distribution Taxes

3. Ind AS 23, Borrowing costs

4. Ind AS 28 - Investment in associates and joint ventures

5. Ind AS 103 and Ind AS 111 - Business combinations and joint arrangements

6. Ind AS 109 - Financial instruments

7. Ind AS 19 - Employee benefits

The Company is in the process of evaluating the impact of such amendment

Particulars	March 31, 2022	March 31, 2021
Actuarial (gains) / losses due to :		
Change in financial assumptions		
Experience Variance (i.e. Actual experience vs assumptions)	-	
Net Amounts recognised	-	

Notes to Standalone Financial Statement for the year ended 31st March, 2022

### 41 Employee Benefits (contd.)

3

Particulars	March 31, 2022	March 31, 2021
Financial Assumptions		
Discount Rate p.a.	6.80%	
Rate of increase in salaries p.a.	5.00%	
Demographic Assumptions		
Mortality Rate (% of IALM 2012-14)	100.00%	
Normal Retirement Age	60 Years	-
Attrition Rates, based on age (% p.a.)		
For all ages	10.00	· · · · ·

### f) Sensitivity Analysis

Significant actuarial assumptions for the determination of the define benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period, while holding all other assumptions constant. The result of sensitivity analysis is given below :

Particulars	March 31	, 2022	March 3	31, 2021
Defined Benefit Obligation (Base)		1,527,390		
Particulars	March 31	,2022	March 3	31, 2021
	Decrease	Increase	Decrease	Increase
Discount Rate (- / + 1%)	1,649,404	1,420,678		
% change compared to base due to sensitivity	7.99%	-6.99%	÷.,	,
Salary Growth Rate (- / +1%)	1,416,743	1,643,850	4	
% change compared to base due to sensitivity	-7.24%	7.62%		
Attrition Rate (- / + 50%)	1,427,617	1,571,732	-	
% change compared to base due to sensitivity	-6.35%	2.90%	-	
Mortality Rate (- / + 10%)	1,525,271	1,529,468		
% change compared to base due to sensitivity	-0.14%	-0.14%	-	

# g) Maturity Profile of Defined Benefit Obligation

Particulars	March 31, 2022	March 31, 2021
Weighted average duration (based on discounted cash flow)	8 Years	3
Expected cash flows over the next (valued on undiscounted basis)		
1 Year	164,757	
2 to 5 years	637,860	
6 to 10 years	662,154	
More than 10 years	1,403,916	·

### h) Summary of Assets and Liability (Balance Sheet Position)

Particulars	March 31, 2022	March 31, 2021
Present value of Obligation	1,527,390	
Fair Value of Plan Assets	÷	5
Unrecognized Past Service Cost	≈ .	
Effects of Asset Celling		
Net Asset / (Liability)	(1,527,390)	

# i) Windup Liability / Discontinuance Liability

Particulars	March 31, 2022	March 31, 2021
Discontinuance Liability *	1,790,989	
Present Value of Obligation	1,527,390	
Ratio (PV of Obligation / Discontinuance Liability)	85%	01

\* Discontinuance Liability is the amount that would be payable to the employees if all the obligations were to be settled immediately. It has been calculated ignoring the vesting criteria.

PANSARI DEVELOPERS LIMITED Notes to Standalone Financial Statement for the year ended 31st March, 2022 44.4 Market Risk Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of Foreign Exchange Risk and Interest Rate Risk. a Foreign Exchange Risk Foreign Exchange Risk is the exposure of the Company to the potential impact of the movement in foreign excloange rate. The Company does not have any material foreign currency exposure at the balance sheet date. b Interest Rate Risk Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in murket rates. The company's exposure to the risk of changes in market interest rate relates primarily to company's borrowing with floating interest rates. The Company do not have any significant interest rate risk on its current borrowing due to their short tenure. 44.5 Other Price Risk In order to deploy the surplus funds, necessary planning is done by the Finance & Accounts Department after considering the fund planning of subsequent months and overall fund position. Various investments options are evaluated within the investment options allowed by the Board to arrive at proper decision. The Investment so made are reviewed every month. To spread the concentration of funds as well as risks, investments in Equity Shares and Lands are scattered and utmost care and vigilance is undertaken before deployment of funds for investment purpose to ensure credit worthiness of the investment and availability of such surplus invested funds to meet any unforeseen situation that may arise. 45 Capital Management The Company's capital management is intended to create value for shareholders by facilitating the meeting of long term and short term goals of the Company The Company determines the amount of capital required on the basis of annual business plan coupled with long term and short term strategic investment and expansion plans. The funding needs are met through cash generated from operations and short term bank borrowings The Company monitors the capital structure on the basis of net debt to equity ratio and manurity profile of the overall debt portfolio of the Company Net debt includes interest bearing borrowings less cash and cash equivalents, other bank balances and current investments. The table below summarises the capital, net debt and net debt to equity ratio of the Company, Particulars 31.03.2022 31.03.2021 31.03.2020 Equity Share Capital 174,468,000 174,468,000 174,468,000 Other Equity 1.019,049,624 934,082,752 449,093,942 Total Equity (A) 1,193,517,624 1,108,550,752 623.561.942 Short Term Borrowings (Gross Debt) (B) 369,262,187 275,317,457 264,405,319 long Term Borrowings (Gross Debt) (B) 118,564,976 231,658,131 Total Capital (A+B) 1,562,779,811 1,502,433,185 1,119,625,393 Gross Debt (8) as above 369,262,187 393,882,433 496,063,450 Less: Cash and Cash Equivalents 7.801.662 19:474.910 9,797,396 Less: Other Bank Balances Net Debt (C) 361,460.524 374,407,493 486,266,054 Net Debt to Equity (C/A) 0.30 0.34 0.78

	PANSARI DEVELOPERS LIMITED Notes to Standalone Financial Statement for the year ended 31st March, 2022
46	Transition to Ind AS
46.1	Basis for Preparation
	For all period up to and including the year ended March 31, 2021, the Company has prepared its financial statements in accordance with generall accepted accounting principles in India (Indian GAAP). These financial statements for the year ended March 31, 2022 are the Company's first annua Ind AS Financial Statements and have been prepared in accordance with Ind AS.
	The Company has prepared the opening balance sheet as per Ind AS as at April 1, 2020 (the transition date) by recognizing all assets and liabilities whose recognition is required by Ind AS, not recognizing items of assets or liabilities which are not permitted by Ind AS, by reclassifying certain item from Previous GAAP to Ind AS as required under the Ind AS, and applying Ind AS in the measurement of recognized assets and liabilities. Th accounting policies that the Company has used in its opening Ind-AS Balance Sheet may have differed from those that it used for its previous GAAP. The resulting adjustments arising from events and transactions occurring before the date of transition to Ind-AS has been recognized directly is retained earnings at the date of transition.
	The accounting policies set out in note 2 have been applied in preparing the financial statements for the year ended 31 March 2022, the comparative information presented in these financial statements for the year ended 31 March 2021 and in the preparation of an opening Ind A5 balance sheet at April 2020 (the date of transition). This note explains the principal adjustments made by the Company in restating its financial statements prepared is accordance with previous GAAP, and how the transition from previous GAAP to Ind A5 has affected the Company's financial position, financial performance and cash flows.
11.0	Exampless and Exampless Applied
10.4	Exceptions and Exemptions Applied Ind AS 101 "First-time adoption of Indian Accounting Standards" (hereinafter referred to as Ind AS 101) allows first time adopters certain exemption from the retrospective application of certain IND AS, effective for April 1, 2020 opening balance sheet. In preparing these financial statements, the Company has applied the below mentioned optional exemptions and mandatory exceptions.
6.2.1	Optional Exemptions Availed
	Business Combinations
	Ind AS 101 provides the option to apply Ind AS 103 prospectively from the transition date or from a specific date prior to the transition date. This provides relief from full retrospective application that would require restatement of all business combinations prior to the transition date. The Company has not applied Ind AS 103 to acquisitions of businesses under Ind AS, that occurred before the transition date i.e., 1st April 2020 Accordingly, business combinations occurring prior to the transition date have not been restated.
b	Property Plant and Equipment and Intangible Assets
	As permitted by Para DS-D8B of Ind AS 101, the Company has elected to measure items of Plant and equipment and intangible assets at its previous GAAP carrying value on the transition date as deemed cost. Items of Property have been measured at Market Rate.
2	Designation of previously recognised financial instruments
	Para D19B of Ind AS 101 permits an entity to designate particular investments in equity instruments as at fair value through other comprehensive income (FVOCI) based on facts and circumstances at the date of transition to Ind AS (rather at initial recognition). The Company has opted to avail this exemption to designate its investments in equity instruments as FVOCI on the date of transition.
6.2.2	Mandatory Exceptions
a	Estimates
	As per Para 14 of Ind AS 101, an entity's estimates in accordance with Ind AS at the date of transition to Ind AS at the end of the comparative period presented in the entity's first Ind AS financial statements, as the case may be, should be consistent with estimates made for the same date in accordance with the previous GAAP unless there is objective evidence that these estimates were in error. However, the estimates should be adjusted to reflect any differences in accounting policies. As per Para 16 of the standard, where application of Ind AS requires an entity to make certain estimates that were not required under previous GAAP, those estimates should be made to reflect conditions that existed at the date of transition or at the end of the comparative period. The Company's estimates under Ind AS are consistent with the above requirement. Key estimates considered in preparation of the financial statement that were not required under the previous GAAP are listed below:
	-Fair Valuation of financial instruments carried at FVTPL and/ or FVOCL -Impairment of financial assets based on the expected credit loss model
	-Determination of the discounted value for financial instruments carried at amortized cost.

PANSARI DEVELOPERS LIMITED Notes to Standalone Financial Statement for the year ended 31st March, 2022 De-recognition of Financial Assets and Liabilities ъ As per Para B2 of Ind AS 101, an entity suculd apply the derecognition requirements in Ind AS 109, "Financial Instruments", prospectively for transactions occurring on or after the date of transition to Ind AS. However, Para B3 gives an option to the entity to apply the derecognition requirements from a date of its choice # the information required to apply Ind AS 109 to financial assets and financial liabilities derecognized as a result of past transactions was obtained at the initially accounting for those transactions. The company has elected to apply the de-recognition provisions of Ind AS 109 prospectively from the date of transition to Ind AS. Classification and measurement of Financial Assets ς. Para B8 - B8C of Ind A5 101 requires an entity to assess classification of financial assets on the basis of facts and circumstances existing as on the date of transition. Further, the standard permits measurement of financial assets accounted at amortized cost based on facts and circumstances existing at the date of transition if retrospective application is impracticable. Accordingly, the Company has determined the classification of financial assets based on facts and circumstances that exist on the date of transition. Measurement of the financial assets accounted at amortized cost has been done retrospectively. 46.3.3 Notes to First Time Adoption Investment in Unquoted Equity Instrument: Under the previous GAAP, investments in Equity instruments were classified as long-term investments 4 based on the intended holding period and reliability. Long-term investments were carried at cost less provision for other than temporary decline in the value of such investments. Under Ind AS, these investments are required to be measured at fair value. Fair value changes with respect to investments in equity instruments designated as at EVOCI have been recognised in other equity under Equity Investment through EVOCI as at the date of transition and subsequently in the other comprehensive income for the year ended 31 March 2021. Investment in Quoted Equity Instrument: Under the previous GAAP, investments in Equity instruments were classified as long-term investments based on the intended holding period and reliability. Long-term investments were carried at cost less provision for other than temporary decline in the value of such investments. Under Ind AS, these investments have been measured at market value. Market Value with respect to investments in equity instruments designated as at FVOCI have been recognised in other equity under Equity Investment through FVOCI as at the date of transition and ь subsequently in the other comprehensive income for the year ended 31 March 2021. Investment in Land: Under the previous GAAP, investments in Land were classified as long-term investments based on the intended holding period and reliability. Long-term investments were carried at cost less provision for other than temporary decline in the value of such investments. Under Ind AS, these investments have been measured at market value as on 31.03 2021. The resulting fair value changes of these investments have been c recognised in retained earnings as at the date of transition and subsequently in the profit or loss for the year ended 31 March 2021.
