NOTES

1. The building is to be constructed of brick and concrete.

2. The foundation is to be of concrete.

3. The roof is to be of concrete.

4. The walls are to be of brick.

5. The floors are to be of concrete.

6. The doors are to be of wood.

7. The windows are to be of wood.

8. The stairs are to be of wood.

9. The elevators are to be of steel.

10. The plumbing is to be of copper.

11. The electrical is to be of steel.

12. The heating is to be of steam.

13. The cooling is to be of air conditioning.

14. The lighting is to be of electric.

15. The fire alarm is to be of electric.

16. The fire escape is to be of steel.

17. The fire extinguishers are to be of dry chemical.

18. The fire hose is to be of rubber.

19. The fire hydrant is to be of cast iron.

20. The fire alarm bell is to be of brass.

21. The fire alarm pull station is to be of brass.

22. The fire alarm control panel is to be of steel.

23. The fire alarm annunciator is to be of brass.

24. The fire alarm bell is to be of brass.

25. The fire alarm pull station is to be of brass.

26. The fire alarm control panel is to be of steel.

27. The fire alarm annunciator is to be of brass.

28. The fire alarm bell is to be of brass.

29. The fire alarm pull station is to be of brass.

30. The fire alarm control panel is to be of steel.

31. The fire alarm annunciator is to be of brass.

32. The fire alarm bell is to be of brass.

33. The fire alarm pull station is to be of brass.

34. The fire alarm control panel is to be of steel.

35. The fire alarm annunciator is to be of brass.

36. The fire alarm bell is to be of brass.

37. The fire alarm pull station is to be of brass.

38. The fire alarm control panel is to be of steel.

39. The fire alarm annunciator is to be of brass.

40. The fire alarm bell is to be of brass.

41. The fire alarm pull station is to be of brass.

42. The fire alarm control panel is to be of steel.

43. The fire alarm annunciator is to be of brass.

44. The fire alarm bell is to be of brass.

45. The fire alarm pull station is to be of brass.

46. The fire alarm control panel is to be of steel.

47. The fire alarm annunciator is to be of brass.

48. The fire alarm bell is to be of brass.

49. The fire alarm pull station is to be of brass.

50. The fire alarm control panel is to be of steel.

51. The fire alarm annunciator is to be of brass.

52. The fire alarm bell is to be of brass.

53. The fire alarm pull station is to be of brass.

54. The fire alarm control panel is to be of steel.

55. The fire alarm annunciator is to be of brass.

56. The fire alarm bell is to be of brass.

57. The fire alarm pull station is to be of brass.

58. The fire alarm control panel is to be of steel.

59. The fire alarm annunciator is to be of brass.

60. The fire alarm bell is to be of brass.

61. The fire alarm pull station is to be of brass.

62. The fire alarm control panel is to be of steel.

63. The fire alarm annunciator is to be of brass.

64. The fire alarm bell is to be of brass.

65. The fire alarm pull station is to be of brass.

66. The fire alarm control panel is to be of steel.

67. The fire alarm annunciator is to be of brass.

68. The fire alarm bell is to be of brass.

69. The fire alarm pull station is to be of brass.

70. The fire alarm control panel is to be of steel.

71. The fire alarm annunciator is to be of brass.

72. The fire alarm bell is to be of brass.

73. The fire alarm pull station is to be of brass.

74. The fire alarm control panel is to be of steel.

75. The fire alarm annunciator is to be of brass.

76. The fire alarm bell is to be of brass.

77. The fire alarm pull station is to be of brass.

78. The fire alarm control panel is to be of steel.

79. The fire alarm annunciator is to be of brass.

80. The fire alarm bell is to be of brass.

81. The fire alarm pull station is to be of brass.

82. The fire alarm control panel is to be of steel.

83. The fire alarm annunciator is to be of brass.

84. The fire alarm bell is to be of brass.

85. The fire alarm pull station is to be of brass.

86. The fire alarm control panel is to be of steel.

87. The fire alarm annunciator is to be of brass.

88. The fire alarm bell is to be of brass.

89. The fire alarm pull station is to be of brass.

90. The fire alarm control panel is to be of steel.

91. The fire alarm annunciator is to be of brass.

92. The fire alarm bell is to be of brass.

93. The fire alarm pull station is to be of brass.

94. The fire alarm control panel is to be of steel.

95. The fire alarm annunciator is to be of brass.

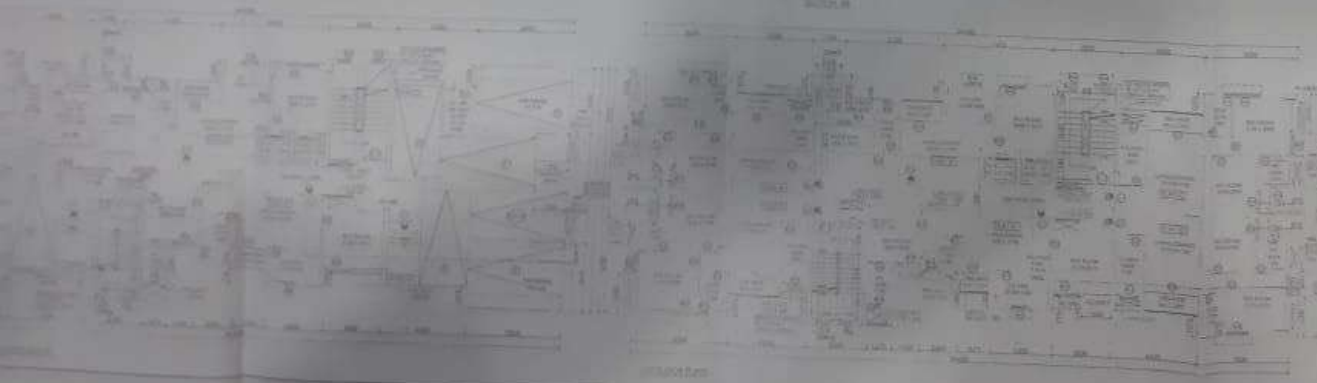

96. The fire alarm bell is to be of brass.

97. The fire alarm pull station is to be of brass.

98. The fire alarm control panel is to be of steel.

99. The fire alarm annunciator is to be of brass.

100. The fire alarm bell is to be of brass.

NOTES

1. The building is to be constructed of brick and concrete.

2. The foundation is to be of concrete.

3. The roof is to be of concrete.

4. The walls are to be of brick.

5. The floors are to be of concrete.

6. The doors are to be of wood.

7. The windows are to be of wood.

8. The stairs are to be of wood.

9. The elevators are to be of steel.

10. The plumbing is to be of copper.

11. The electrical is to be of steel.

12. The heating is to be of steam.

13. The cooling is to be of air conditioning.

14. The lighting is to be of electric.

15. The fire alarm is to be of electric.

16. The fire escape is to be of steel.

17. The fire extinguishers are to be of dry chemical.

18. The fire hose is to be of rubber.

19. The fire hydrant is to be of cast iron.

20. The fire alarm bell is to be of brass.

21. The fire alarm pull station is to be of brass.

22. The fire alarm control panel is to be of steel.

23. The fire alarm annunciator is to be of brass.

24. The fire alarm bell is to be of brass.

25. The fire alarm pull station is to be of brass.

26. The fire alarm control panel is to be of steel.

27. The fire alarm annunciator is to be of brass.

28. The fire alarm bell is to be of brass.

29. The fire alarm pull station is to be of brass.

30. The fire alarm control panel is to be of steel.

31. The fire alarm annunciator is to be of brass.

32. The fire alarm bell is to be of brass.

33. The fire alarm pull station is to be of brass.

34. The fire alarm control panel is to be of steel.

35. The fire alarm annunciator is to be of brass.

36. The fire alarm bell is to be of brass.

37. The fire alarm pull station is to be of brass.

38. The fire alarm control panel is to be of steel.

39. The fire alarm annunciator is to be of brass.

40. The fire alarm bell is to be of brass.

41. The fire alarm pull station is to be of brass.

42. The fire alarm control panel is to be of steel.

43. The fire alarm annunciator is to be of brass.

44. The fire alarm bell is to be of brass.

45. The fire alarm pull station is to be of brass.

46. The fire alarm control panel is to be of steel.

47. The fire alarm annunciator is to be of brass.

48. The fire alarm bell is to be of brass.

49. The fire alarm pull station is to be of brass.

50. The fire alarm control panel is to be of steel.

51. The fire alarm annunciator is to be of brass.

52. The fire alarm bell is to be of brass.

53. The fire alarm pull station is to be of brass.

54. The fire alarm control panel is to be of steel.

55. The fire alarm annunciator is to be of brass.

56. The fire alarm bell is to be of brass.

57. The fire alarm pull station is to be of brass.

58. The fire alarm control panel is to be of steel.

59. The fire alarm annunciator is to be of brass.

60. The fire alarm bell is to be of brass.

61. The fire alarm pull station is to be of brass.

62. The fire alarm control panel is to be of steel.

63. The fire alarm annunciator is to be of brass.

64. The fire alarm bell is to be of brass.

65. The fire alarm pull station is to be of brass.

66. The fire alarm control panel is to be of steel.

67. The fire alarm annunciator is to be of brass.

68. The fire alarm bell is to be of brass.

69. The fire alarm pull station is to be of brass.

70. The fire alarm control panel is to be of steel.

71. The fire alarm annunciator is to be of brass.

72. The fire alarm bell is to be of brass.

73. The fire alarm pull station is to be of brass.

74. The fire alarm control panel is to be of steel.

75. The fire alarm annunciator is to be of brass.

76. The fire alarm bell is to be of brass.

77. The fire alarm pull station is to be of brass.

78. The fire alarm control panel is to be of steel.

79. The fire alarm annunciator is to be of brass.

80. The fire alarm bell is to be of brass.

81. The fire alarm pull station is to be of brass.

82. The fire alarm control panel is to be of steel.

83. The fire alarm annunciator is to be of brass.

84. The fire alarm bell is to be of brass.

85. The fire alarm pull station is to be of brass.

86. The fire alarm control panel is to be of steel.

87. The fire alarm annunciator is to be of brass.

88. The fire alarm bell is to be of brass.

89. The fire alarm pull station is to be of brass.

90. The fire alarm control panel is to be of steel.

91. The fire alarm annunciator is to be of brass.

92. The fire alarm bell is to be of brass.

93. The fire alarm pull station is to be of brass.

94. The fire alarm control panel is to be of steel.

95. The fire alarm annunciator is to be of brass.

96. The fire alarm bell is to be of brass.

97. The fire alarm pull station is to be of brass.

98. The fire alarm control panel is to be of steel.

99. The fire alarm annunciator is to be of brass.

100. The fire alarm bell is to be of brass.
