Approved Subject to:
1) Building materials for Bidhannagar Municipal Corporation shall have to be observed carefully.
2) No wastages of water shall be made, check regularly that as provided in groundunder ground pipe line connection.
3) In no case any sewerage water pipe and the surface drainage should be connected to the houses sewer directly or through any yard gully.
4) Plan showing internal sewer system and water supply lines should be submitted separately for sanction.
5) Before start of any construction it should be ensured that the site dimension conforms with that of the sanctioned and all the conditions as proposed in the plan shall be fulfilled.
6) Road and footpath shall not be encroached by any building material mixing of materials etc. during construction.
7) Prior to commencement of construction Appendix-A shall have to be submitted.

Particular precautions following measures are to be strictly taken in reducing the effects of dust pollution from building construction sites

- **Properly covering** all building materials stacked at site like cement bags, **sand, fine & stone chips.**
- **Using water** sprays or sprinklers to keep the dust down during activities **such as concreting, plastering, breaking** concrete and pulling of bricks.
- **Washing the wheels** of vehicles leaving the site, if they are carrying mud or waste.
- **Putting up solid barriers** around the site.
- **Properly covering trucks & vehicles** that enter and leave the site carrying building **materials and building debrises.**
- **Cleaning and watering** the road and footpath adjacent to the site at frequent intervals.
- **Using dust bags,** spraying water when using stone cutters and making the working area wet before using the machineries.

Not burning waste materials at site which releases smoke containing carbon monoxide and a range of pollutants substances.
