Notes to financial statements as at and for the year ended 31st march 2022
(All amounts in Indian Rupee rounded off to the nearest thousands, unless otherwise stated)

Background & Nature of operations:

G. S. ABASAN PRIVATE LIMITED ("the Company") is a private limited company limited by shares, domiciled and incorporated in India under the provision of Companies Act 2013 on 24th of August, 2011 primarily with the objectives of carrying-on Real Estate Business..

1. Significant Accounting Policies:

This note provides a list of the significant accounting policies adopted in the presentation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

a.) Basis for preparation of financial statements:

The financial statements have been prepared under the historical cost convention on the accrual basis of accounting following Generally Accepted Accounting Principles in India (GAAP) and comply with the Accounting Standards specified under section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Account) Rules 2014 (as amended) to the extent now applicable.

The accounting policies, in all material aspects, have been consistently applied by the Company and consistent with those used in the previous year except as stated otherwise.

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency') The Indian Rupee (INR) is the functional and presentation currency of the company unless otherwise indicated.

b.) Use of estimates and critical accounting judgments:

The preparation of financial statements in conformity with GAAP requires the management to make estimates and assumptions that affect the reported balances of assets and liabilities as at the date of the financial statements and reported amounts of the income and expenses during the period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

c.) Cash and Bank Balance:

For the purpose of presentation in the Cash Flow Statement, cash and cash equivalents includes cash on hand, deposits held with banks / financial institutions with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

d.) Revenue recognition:

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of trade discounts, rebates, value added taxes, goods and service tax (GST) and amounts collected on behalf of third parties. The Company recognizes revenue when the amount can be reliably measured, and it is probable that the economic benefits will flow to the Company and specific criteria have been met for each of the company's activities as described below. The company bases its estimates on historical results, taking into consideration the type of transaction and the specifics of each arrangement.

e.) Taxation:

Provision for Income tax comprises of Current Tax and Deferred Tax charge or release. Current Income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act, 1961.

Deferred Income Tax reflects the impact of current year's timing differences between taxable income and accounting income and reversal of timing differences of earlier years. Deferred Tax is

measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred Tax Assets are recognized only to the extent that there is 'reasonable certainty' that sufficient future taxable income will be available against which such Deferred Tax Assets can be realized.

f.) Trade and other Payables:

These amounts represent liabilities for goods and services provided to the company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest rate method.

g.) Borrowing and Borrowing Costs:

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the year in which they occur are charged to profit and loss account. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

h.) Provisions:

A provision is recognized when an enterprise has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made.

i.) Leases:

Lease of assets where all the risks and rewards of ownership are effectively retained by the lessor are classified as operating leases. Lease payments under operating leases are recognized as expenses on accrual basis in accordance with the respective lease agreements.

j.) Employee benefits:

- Short-term employee benefits:

Short-term employee benefits, such as salaries, bonus, incentives, allowances etc. are recognized as expenses at actual amounts, in the Statement of Profit and Loss for the year in which the related service is rendered.

The Company does not make any contribution to any defined contribution plans or defined benefit plans under the provisions of Provident Fund and Pension Fund Scheme, Employees State Insurance act, 1948, Payment of Gratuity Act 1972 as the Act is not applicable to the Company since number of employees employed at any time during the year did not exceed the prescribed limit.

k.) Dividends:

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

12 The Company is a Small and Medium Sized Company ("SMC"). Accordingly, AS-17 is not applicable to the Company. AS-15 and AS-29 are also not applicable to the Company in its entirety.

13. There is no amount due to the suppliers registered under the Micro, Small and Medium Enterprises (Development) Act, 2006, to the extent that such parties have been identified from available information. No interest either has been accrued or paid during the year.

14. Earnings per share:

- Basic earnings per share
Basic earnings per share is calculated by dividing:
 - the profit/ loss attributable to owners of the company
 - by the weighted average number of equity shares outstanding during the financial year.
- Diluted earnings per share
Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:
 - The after-income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
 - The weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.
