Plan for Water Supply arrangement including details of the water supply system should be submitted at the Office of the Engineer-in-Charge and the sanction obtained before commencing the work of Water Supply any other work connected therewith.

A suitable pump has to be provided for pumping untreated water for the distribution to the building cisterns and urinals in the main and branches.

No rain water can be used for drinking or for the supply of water to the building cisterns and urinals in the main and branches. The sanction of the Engineer-in-Charge should be obtained before proceeding with the design.

Necessary tests should be taken for the soil and water in the area adjoining public and private buildings during construction.

THE SANCTIONS MAY BE UP TO 15/12/2023

The building materials that will be used should be of good quality and should be tested and approved by the Engineer-in-Charge before their use in the building.

CONSTRUCTION SITE SHALL BE MAINTAINED TO PREVENT NOISY BREEDING AS REQUIRED BY THE CITY CODE. PARTICULARLY IN THE CASE OF CONSTRUCTION OF LIFTWELLS, WATER RESERVOIR, CISTERN, OVERHEAD TANKS, ETC. MUST BE LIMITED COMPLETELY.

All Building Materials to be used in the construction should conform to the standards specified in the National Building Code of India.

Plan, Contract Documents, etc. shall be submitted to the Engineer-in-Charge for his sanction. Require Fresh Application for Sanction.
