### PARTY'S COPY

RESIDENTIAL BUILDING DEVIATION WOULD MEAN DEMOLITION

CONSTRUCTION SITE SHALL BE MAINTAINED TO PREVENT ACCIDENTS AND TO PROTECT THE ADJACENT AREAS. THE SITE SHOULD BE KEPT CLEAN AND FREE FROM OBSTACLES. PARTICULARLY LIPS, WELLS, VAULTS, BASEMENTS, STAIRS, STOPS, OPEN RECEIPTS, ETC. AS EMPLOYED COMPLETELY TWICE A WEEK.

No open water and should be free from stagnation on Road or Footpath. Drainage plan should be approved by the Borough Executive Engineer's Office and the sanction obtained before proceeding with the drainage work.

Before starting any construction the site must conform with the specifications and the plan should be followed.

A suitable pump has to be provided for the distribution of water to the building unless and unless in a building house, unfiltered water from street main is not available.

For the water supply arrangement including small tanks and pipes should be installed at the Office of the Executive Engineer's Office and the sanction obtained before proceeding with the work of water supply and the other related arrangements.

Non Commencement of Erection (to proceed within two days of the date of sanction).

All Building Materials to necessary & specification should conform to the standards specified in the National Building Code of India.

Design of all Structural Members including that of the Foundation should conform to standards specified in the National Building Code of India.

Necessary steps should be taken for the safety of the public and the adjoining streets and roads during construction.
