Assistant Engineer  
Bhimnagar Municipal Corporation

Other precautionary following measures are to be strictly taken to reduce the effects of dust emanating from building construction sites.

- Properly covering all building materials stacked at site like cement bags, sand, lime & stone chips.
- Holes, water tanks or scaffolds to be kept in good repair and clean during activities such as concreting, plastering, levelling concrete and painting.
- Washing the wheels of vehicles leaving the site, if they are carrying mud or waste.
- Putting up solid barriers around the site.
- Properly covering trucks & vehicles that enter and leave the site carrying building materials and building debris.
- Cleaning and watering the road and footpath adjacent to the site at frequent intervals.
- Using dust bags spraying water when using stone cutters and making the working area wet before using the machinery.
- Not burning waste materials at site which causes smoke containing carbon monoxide and a range of poisonous substances.
