51AB 177961

As per direction of the Department of Environment, Govt. of West Bengal vide Memo No.EN/3170/T-IV-7/001/2009, dated 10th Dec'2009, I shall abide by the following preventive measures during the construction period of the building within my/our premises :-

- a) Warp construction area/building with geotextile fabric, installing dust barriers or other actions as appropriate for the location.
- b) Apply water and maintain soils in a visible damp or crusted condition for temporary stabilisation.
- c) Apply water prior to leveling or any other earth moving activity to keep the soil moist throughout the process.
- d) Limit vehicle speeds to 15 mph on the work site.
- e) Clean wheels and undercarriage of haul trucks prior to leaving construction site.
- f) Apply and maintain dust suppressant on haul routes.
- g) Apply a cover or screen to stockpiles and stabilise stockpiles at completion of activity by water and maintain a dust palliative to all outer surfaces of the stockpiles.
- h) Stabilise surface soils where loaders, support equipment and vehicles will operate by using water and maintain surface soils in a stabilised condition where loaders, support equipment and vehicles will operate.
- i) Stabilise adjacent disturbed soils following paving activities with immediate landscaping activity or installation of vegetative or rock cover.
- j) Maintain dust control during working hours and clean track out from paved surfaces at the end of the work shift/day. Track out must now extend 50 feet or more and must be cleaned daily at the minimum.

Contd.....P/2

- k) Stabilise sloping surfaces using soil binders until vegetation or ground cover can effectively stabilise the slope.
- l) Disposal of debris in consultation with the local authorities following proper environmental management practice.
- m) During construction work, including cutting of marbles ambient noise level should not exceed more than 65 dB(A).

Practices to be discarded:

- a) Don't dispose of debris indiscriminately.
- b) Don't allow the vehicles to run at high speed within the work site.
- c) Don't cut materials without proper dust control/noise control facility.
- d) Don't keep materials without effective cover.
- e) Don't allow access in the work area except workers to limit soil disturbance and prevent access by fencing ditches, vegetation, berms or other suitable barrier.
- f) Don't leave the soil, sand and cement stack uncovered.
- g) Don't keep materials or debris on the roads or pavements.
- h) Burning of old tyres in hot mix plant as a fuel during construction and repair of the roads for melting coal tar should be discarded.
