Subject: Undertaking for precautional measures against breeding of mosquitoes and other insects.

To
The Executive Officer
Borough No. 1
The Kolkata Municipal Corporation
Kolkata

Sir/Madam,

This is to bring to your kind notice that the undersigned is the owner of premises no. 24 Beerpara Lane, Ward No. 94, Borough – I, P.S. Chitpur, Kolkata – 700030 and I am in the process of construction of a residential building at the above premises.

I hereby declare that while executing the works mentioned by me in the notice given u/s 391(1) of the KMC Act 1980, I shall comply with the requirements of the section 397 (1) & (2) of the Kolkata Municipal Corporation act 1980 and shall be responsible for making the construction site and premises free of water sanction, free of water collection which are likely to be source for breeding of mosquitoes or in any other respect a nuisance. We also here by give undertaking that all water collections required to be maintained for construction work in places like lift, vats, open drains, foundation pits and walls curing sites after floor casting or such places where water / rain water accumulate shall be drained off / emptied twice by a week to prevent mosquito breeding. We also ensure that all other reusable discarded receptacles like buckets, broken pots, coconut shell etc. are removed to keep the construction premises clean and shall be duly liable for such action which helps in breeding of mosquitoes, so that it may not be offensive to the neighborhood or in any other respect a nuisance.

Thanking you,
Yours Faithfully,

For M/s. Asiatic Board Mills Pvt. Ltd.

A. Preventive measures need to be taken for pollution free environment:-

a) Wrap construction area/buildings with geotextile fabric installing dust barriers, or other actions, as appropriate for the location.
b) Apply water and maintain soils in a visible damp or crusted condition for temporary stabilization.
c) Apply water prior to leveling or any other earth-moving activity to keep the soil moist throughout the process.
d) Limit vehicle speeds to 15 mph on the work site.
e) Clean wheels and undercarriage of haul trucks prior to leaving construction site.
f) Apply and maintain dust suppressant on haul routes.
g) Apply a cover on screen to stockpiles and stabilize stockpiles at completion of activity by water and maintain a dust palliation to all water surfaces of the stockpiles;
h) Stabilize surface soils where loaders, support equipment and vehicles will operate by using water and stabilize surface soils to a stabilized condition where loaders, support equipment and vehicles will operate;
i) Stabilize adjacent disturbed soils following paving activities with immediate landscaping activity or installation of vegetation or rock cover.
j) Maintain dust control during working hours and clean track out from paved surfaces at the end of the work shift/day. Track out must now extend 50 feet or more and must be cleaned daily at the minimum.
k) Stabilize paving surfaces using soil binders until vegetation or ground cover can effectively stabilize the slope.
l) Disposal of debris in consultation with the local authorities following proper explosive debris management practice.
m) During construction work, including cutting of marbles, ambient noise level should not exceed more than 90 dB(A).

B. Practices to be discarded for pollution free Environment:-

a) Don't dispose of debris indiscriminately;
b) Don't allow the vehicles to run at high speed within the work site.
c) Don't cut materials without proper dust control/noise control facility.
d) Don't keep materials without effective cover.
e) Don't allow access in the work area except workers to limit soil disturbance and prevent access by fencing, ditches, vegetation, berms or other suitable barrier.
f) Don't leave the soil, sand and cement stock uncovered.
g) Don't keep materials or debris on the roads or pavements.
h) Burning of old tyres in hot mix plant as a fuel during construction and repair of the roads for making road for should be discarded.
