- 3) Apply water to the road surface to prevent dust from being raised during construction.
- 4) Apply water to the road surface to prevent dust from being raised during construction.
- 5) Apply water to the road surface to prevent dust from being raised during construction.
- 6) Apply water to the road surface to prevent dust from being raised during construction.
- 7) Apply water to the road surface to prevent dust from being raised during construction.
- 8) Apply water to the road surface to prevent dust from being raised during construction.
- 9) Apply water to the road surface to prevent dust from being raised during construction.
- 10) Apply water to the road surface to prevent dust from being raised during construction.

Subj: Guidelines for promoters/ developers/ contractors/agencies for prevention of mosquito breeding at construction sites in different wards of KMC

5A, SANTAPARA LANE
ANIRBAN SENAPATA RA of
KUMAR KUMAR BASAK, DEB
KUMAR KUMAR BASAK, KALYANI BASAK.

This is to be known that the onset of preventing mosquito breeding at the said construction site measures on your own and hence you are hereby requested to undertake the following preventive measures on your own and regular basis to keep the site free of mosquito larvae:-

- 1) Empty water tanks, water storage containers, reservoirs, please cause to sprinkle for 100 sq m surface area at weekly intervals.
- 2) If you face any problem in emptying water containers, please cause to sprinkle for 100 sq m surface area at weekly intervals.
- 3) For filling up the road based trenches, please provide 1 or 2 kerosene sprayers (1-6-litre capacity) from the open market and select 1-3 field workers from your end and accomplish the job by employing them to spray the trenches with any of the said 3 materials at your construction site, please procure 1 or 2 kerosene sprayers (1-6-litre capacity) from the open market and select 1-3 field workers from your end and accomplish the job by employing them to spray the trenches with any of the said 3 materials at your construction site.
- 4) Technical knowledge for spraying kerosene may be obtained from the Vector Control team of KMC, the team will keep a close watch on your construction site.
- 5) If any sort of violation on your part with regard to implementation of the proposed anti-mosquito guidelines is found, legal steps will be resorted to by the KMC as per the existing norms.

Please awareness and help the Health Department of KMC prevent transmission of mosquito-borne diseases in the city of Kolkata.
