

walls are leaking in rainy season damaging the furniture's and fixtures. Cracks have appeared in walls which may cause serious accidents any day. Even the Drainage System and Water connection are incomplete or done in an ad hoc manner. Electricity has also been provided in a very casual way causing power cut off and on , especially in summer when electric load increases. Till date Car Parking purchased by us have not been earmarked and rather several cars and even trucks of outsiders/ non owners are being parked within the residential premises while the purchasers are facing difficulties in parking their own cars.

Complaints regarding these problems to your representatives have fallen on deaf ears .Several verbal requests, discussions and even meetings by us with your representatives, promoter and partners have brought no fruitful results except blank and false assurances and several target dates were given which were never met. Even your written assurance dated 14/3/2020 about target date of completion of all the remaining works turned out to be vague. It is very clear on records that you have not only failed to keep your promise but also there is no attempt visible on your part to complete the project.

The purchasers have thus been subjected to tremendous mental agony and financial harassment by your non performance and casual attitude. All our efforts to get the works done in a peaceful and cordial way have failed and our patience is running out. In view of above it is , therefore , requested to kindly take a serious note of the situation and get the above mentioned remaining works of the project completed within 15 days of receipt of this notice failing which we will be compelled to take legal course of action as advised and you shall be liable for all the costs and consequences.

Thanking you.

Yours Sincerely
