Attn Shri Jayanta

Dear Sir /Madam

Firstly I would like to thank you for giving me an opportunity on 18th June 2019 to hold a discussion with you regarding probable date of allotment of apartment no. 8 B1 Tower No. 20 at Highland Greens Phase II .

In the meeting held between us I had apprised you in detail on my pitiable condition .

I have informed you that I have retired from service a long time back and I am presently staying in rented premises .

I had informed my landlord that I have been allotted apartment in Highland Green phase II , I would be moving out in early 2019 and I had shown him supporting documents as received from Ms Highland Group.

However, based on discussions with Madam Neha Khettri Bagla in March 2019 , I had updated my land lord, that I would like to move out only by September 2020 . Since then , my landlord is insisting on me to vacate the premises at the earliest.

Since I had parted with my retirement benefits to own a flat of my own in your Calcutta Riverside Project I am presently not in a position to purchase a new flat and comply with my landlord's request.

To add to my woes I have been detected with throat cancer and you will appreciate that expenses for treatment of cancer is huge. I had offered to show you documents related to my treatment.

In due consideration of the above facts I have requested you to look into the feasibility of allocation of an alternate vacant flat from those already completed. I have also informed that in case any 3 room flat is not presently available I am ready to take possession of a two room flat as available with appropriate return of fund.

You have informed that presently no such flat is available but in all likelihood one flat may get vacant at end of this month.

As informed verbally I request you to kindly inform me as soon as the flat gets vacant and also other wise review on other options to help me out of my present crisis.

With regards
