RESIDENTIAL BUILDING

DEVIATION WOULD MEAN DEMOLITION

"CONSTRUCTION SITE SHALL BE MAINTAINED TO PREVENT MOSQUITO BREEDING AS REQUIRED U/S 496(1) & (2) OF THE P.M. ACT 1987, IN SUCH MANNER SO THAT ALL WATER COLLECTIONS PARTICULARLY LIFE WELLS, PITS, BASEMENT SURGING PITS OPEN RECEPTACLES ETO AS EMPTIED COMPLETELY TWICE & WEAR"

This is to let you know that the aim of preventing mosquito breeding at the said construction site primarily rests with you and hence you are hereby requested to undertake the following preventive measures on your own on a regular basis to keep the site free of mosquito larvae.

- Empty each and every water storage container/reservoir at a weekly interval.
- If you face any problem in emptying water container/reservoir, please contact to speak to someone directly MLO (mosquito larval control) on their water surfaces (of 2.5 l litres per 100 sq m surface area) as 4 times a week.
- For ridding out the used tires/tyres: At your work site, if you have any of the used tires/tyres at your construction site, please procure a tyre shredder (of the capacity from the open market and select 12 shredders from your end and accomplish the job by employing their services at a weekly interval.
- Technical knowledge for quality spacing may be obtained from the visiting Vector Control Team of BMC, the team will keep a close watch on your construction site.
- If any sort of violation on your part with regard to implementation of the proposed anti-mosquito guidelines is found, legal steps will be resorted to by the BMC as per the existing norms.

Please cooperate and help the Health Department of BMC prevent transmission of mosquito-borne diseases in the city of Kulkarni.

No rain water pipe should be fixed or discharged on Road or Footpath. Drainage plan should be submitted at the Office of the Ex-Engineer Water Supply and Sanitation before proceeding with the work.

On the construction site, the drainage plan sanctioned and approved in the plan should be followed.

The validity of the written permission to execute the work is subject to the above conditions.

A suitable pump has to be provided i.e. pumping unfiltered water for the distribution to the flushing systems and urinals in the building in case unfiltered water from street main is used for supply.

Plan for water supply arrangement including SEMI I.C. & O. H. reservoirs should be submitted to the Office of the Ex-Engineer Water Supply and the sanction obtained before proceeding with the work of Water Supply any deviation may lead to disconnection/demolition.

CONSTRUCTION SITE SHALL BE MAINTAINED FREE FROM MOSQUITO BREEDING AS PER THE P.M. ACT 1987, IN SUCH MANNER SO THAT ALL WATER COLLECTIONS PARTICULARLY LIFE WELLS, PITS, BASEMENT SURGING PITS OPEN RECEPTACLES ETO AS EMPTIED COMPLETELY TWICE & WEAR

Non Commencement of Erection/ Re-Erection within Five year will Require Fresh Application for Sanction

All Building Materials to necessary & construction should conform to standards specified in the National Building Code of India.

Design of all Structural members including that of the foundation should conform to Standards specified in the National Building Code of India.

CHECKED AND VERIFIED
