## **NOTE**

### **Vitrified & Granite**

Vitrified Tiles and Granite are heterogeneous materials containing veins, fissures and with tonal differences. Because of firing, slight variation from the standard colour is unavoidable for Vitrified Tiles. There will be colour and markings caused by their complex mineral composition and incorporated impurities. As such, it is impossible to guarantee homogeneity. Granite slabs are pre-polished before laying and care will be taken for their installation. However granite being a hard material cannot be re-polished after installation. Hence, some imperfections may be seen at the joints. Although the vitrified and granite tiles/slabs are cut and produced by available standards of workmanship and machinery, the surfaces of these materials are not perfectly straight or flat and it is not always possible to avoid the resultant gaps/voids formed beneath the vitrified and granite tiles/slabs after installation. The tonality and pattern of vitrified or granite selected and installed shall be subject to availability.

### **Warranties**

Where warranties are given by the manufacturers and/or contractors and/or suppliers of any of the equipment and/or appliances installed by the Vendor at the said Unit, the Vendor shall assign to the Purchaser such warranties at the time when possession of the said Unit is delivered to the Purchaser..

### **Air-Conditioning**

At the time of handover, in case of LT metering, the purchaser must apply for the electricity connection from the concerned authority. Commissioning of the Air-conditioners in an apartment at the time of handover is subject to availability of the electricity connection to the said Apartment and physical presence of the purchaser or its representative. The same can be done even after the handover of the apartment to the purchasers but before expiry of the defect liability period. Vendor shall not be responsible for the commissioning of the air conditioner due to non-availability of the electrical connection or the physical presence of the purchaser during the defect liability period. After defect liability period, under no circumstances, will the vendor have any liability and the purchasers shall make its own arrangement for the commissioning of the air-conditioner and it's maintenance.

### **Brands and Models**

The brand(s) and model(s) of equipment, sanitary wares, fittings, accessories and other appliances to be supplied by the Vendor may be changed with equivalent brand subject to availability.

**Glass**

Glass is a manufactured material that is not 100% pure. Nickel sulphide impurities may cause spontaneous glass breakage in certain pieces of tempered glass that may be used where applicable. It is difficult to detect nickel sulphide impurities prior to the breakage, which may occur in all tempered glass by all manufacturers. The Purchaser is recommended to take up home insurance covering glass breakage to cover this possible event.

Throughout the execution of all items of work including flooring material, doors, aluminium etc, the relevant norms and standard of existing current Indian Standard Code shall be followed.

**Disclaimer:**

Whilst reasonable care has been taken in preparing the brochure and constructing the model and the sales gallery/show unit (SGSU), the Vendor and its agents shall not be held responsible for any inaccuracies in their contents or between the SGSU and the actual unit.

All statements, literature and depictions in the SGSU are not to be regarded as a statement or representations of the fact.
