

That I, would like to state here that I would like to demolish the said existing structure before the approval of a new sanction plan because the old structure is in very bad and dilapidated condition and is severely damaged. That as monsoon has arrived and due to rain the structure is in a very risky state and certain portion of the building may collapse anytime, which may cause accident leading to serious injury to the passerby. Also there is a renowned school in the vicinity namely "MAHADEVI BIRLA WORLS ACCADEMY" and hundreds of school children do cross the said structure every morning.

I, would therefore request you to allow the demolition of the said structure while I get all the paper works ready for submission of application for a new sanction plan of a residential cum commercial building and this may require some time.

Under these circumstances I, hereby inform you to kindly take necessary steps and do the needful at the earliest possible.

Thanking you,

Sincerely yours,

J. Ahmed Khan
