SECRETARY

HOUSING INDUSTRY REGULATORY AUTHORITY

WEST BENGAL

SIR

Most respectfully I would like to draw your kind attention that we have started a construction work at hodling No 10 Agrasain Street, Liluah How-711204.

Before the start of the work there was no such Regulation as HIRA.As HIRA formed and we became aware of the new regulations overtime, we took our best efforts to start and file the application for our project.

Our company took the best efforts to understand the new regulations and file a application for our project. We filed our 1st application online via HIRA website on Jan, 2019 and have the application fees Rs.62,400/- via online banking. Overall it seems that the process took more time than expected.

Being a reputed real estate company developer and law abiding company we took the first priority in filing petition for HIRA number. We know that the process has taken time, as one knows that one take time to adjust change; so has our company.

I would request you to consider our lack of knowledge towards this new change that was brought up by honorable government and request you to waive the fine imposed upon us in the process of applying for HIRA Number for our project.(MANGALMURTI ENCLAVE)

Regards
