Dear Sir,

With reference to your request, this is for your information that our Panchayet also collect the solid waste generated from your complex at a regular basis against requisite payment. We have adequate infrastructure for collecting solid waste from your project and disposal of the same into our designated dumping ground located at Moala Pota, Sonarpur, South 24- Parganas.

We will also allow you to discharge treated wastewater into roadside drain during the construction and Operational phase of the project. If required, the drain will be repaired/constructed at your cost.

Thanking you,

Yours faithfully
