- 2) In some cases the main cable of our premises becomes burnt.
- 3) In last year 3(three) to 4 (four) flat owners resided and now as many as 13 flat owners residing at this building and frequency of cable burnt increased.
- 4) The condition of wire from our sub meter to each flat temporarily connected without proper casing as Transformer not installed As a result some time flashing is shown which is very much dangerous and painful for us.

We are forced to pay our monthly electricity bill on high rate i.e., on the basis of commercial rate instead of domestic rate.

In view of the above, we fervently appeal to your gracious self to look into the matter so that we can get the new transformer

Thanks & regards
