## SEROLOGICAL EXAMINATION

Test Description	Result	Unit	Normal Range.
HIV I & II	0.099	OD	Negative : < 1.0
HIV ( I )	0.076	OD	Positive : > 1.0
HIV ( II )			

Methodology : ELISA.

Specimen : Serum

The test for HIV detections is based on the detection of antibodies against p24, gp+1 and gp120 of HIV 1 and gp36 of HIV 2. The test may show negative result in case of very early stage of infection. This test is a rapid screening test and all the seropositive result is recommended to refer at School of Tropical Medicine, Kolkata for confirmation by other methods.
