Specify if it is a cause of accident / Suicide/Homicide	How injury Occurred	Specify the place of occurrence Home / Farm / Factory / Street / Others	Whether injury occurred while at work Specify by Yes / No
	I have been explained in my own language that the mother is suffering from GDM, there is high risk of neonatal morbidity & fetal dysglycaemia. Since there is fetal distress, there is high risk of neonatal asphyxia & morbidity. Knowing all these, I have given consent to the doctors for further management.		

(To be filled in BLOCK LETTERS at the end of Hospital Stay)

- (a) Outcome : Discharged / Left Against Medical Advice / Abandoned / Referred out / Death
- (b) Final Diagnosis or Injury: I have been explained in my own language that the patient is suffering from GDM, P.H. and is having convulsions. The condition of the patient may worsen with further convulsions, D.C. shock, coma and can even die. Knowing all this I give my consent to the doctors for further T/F.
- (c) Principal complications: ...
- (d) Principal Associated Diseases: ...

I have been explained about the deterioration of the pt. during dialysis. But still I am not giving consent for further dialysis. Atanu Sil
